

Malgorani @ Hydra Valves - Syria

giovedì 24 marzo 2011

Hydra, was established in 2007. despite its youth, it has successfully & rapidly grown to become the leading company in importing valves for the entire Syrian market. Presently, Hydra is far ahead of the competition, specializing in valves trades, in various sectors including Water and HVAC. We support the all water and HVAC valves. We exclusively represent reputable international companies including: - Arco Spain - MUT Meccania tovo.- Malgorani.- Oventrop.

Our Mission:

- To cover the complete range of valves that customers may needs to add value to our customer's business.
- To deliver business benefits to customer through high quality and competitive prices
- To achieve maximum customer satisfaction over the entire life cycle of our customer solution, via our excellence of products.

Our Vision:

Our vision is to create a network, a mutual success, in which our main guideline that paves our path is that Customers are our partners. We continuously, aim to improve our performance to satisfy our highly valued customers with superior qualities, best prices, and updated solutions.
